PROFILE

Motivated and detail-oriented final-year Diploma in ICT (Software Development) student at Walter Sisulu University. Passionate about web development, modern frameworks, and solving real-world problems through code. Eager to grow in a team-focused environment, contribute to exciting projects, and learn technologies like ReactJS, Laravel, PostgreSQL, and Docker. I am adaptable, a fast learner, and thrive in collaborative settings.

SKILLS & ABILITIES

- Strong verbal and written communication
- Good interpersonal skills as I can work well with others and multilingual
- Strong customer orientation
- Highly organized with strong work ethics, attention to detail and great time management

TECHNICAL SKILLS

- Languages: Java, HTML5, CSS3, VB.NET
- Web Development: HTML, JavaScript(beginner), Figma
- Frameworks/Libraries: ReactJS (self-learning),CSS (familiar)
- Database: MySQL
- Version Control: Git, GitHub
- Tools: Visual Studio Code, NetBeans, Inteli J
- Practices: Agile & Scrum, Debugging, SDLC

PROJECTS

2024

Desktop Application (VB.NET)

- Built a desktop-based application (GUI and back-end) using VB.net
- implemented user authentication and secure database interactions using MySQL (Ms Access)

Java Marks Analyzer Program (2024 –Academic Ex)

- Developed a Java console application to input and process student marks using arrays and methods
- Implemented functions to o Fill an array, Calculate and Display
- Used custom methods for modular code design and better readability
- Practiced concepts such as loops, conditionals, method parameters/returns, and data validation
